

A-Z Fisheries River Restoration Storyboard

A comprehensive journey from degradation to regeneration.

Phase A: Assessment & Analysis - The Journey Begins

- Water quality testing
- Fish population surveys
- Habitat mapping
- Flow and sediment analysis

Phase B: Barrier Identification - Obstacles Revealed

- Dams and culverts
- Debris and oxygen zones

Phase C: Community Engagement - Power of Partnership

- Workshops and school programs
- Stakeholder meetings
- Volunteer training

Phase D: Design & Planning - Blueprint for Success

- Fish ladders
- Buffer zones
- Spawning habitat blueprints

Phase E: Execution Phase - Restoration in Action

- Dam removal
- Stabilizing streambanks
- Adding gravel and woody debris

Phase M: Monitoring & Maintenance - Measuring Success

- Tagging studies
- Water monitoring
- Vegetation tracking

A-Z Fisheries River Restoration Storyboard

Phase Z: Zenith of Success - The River Reborn

- Thriving native species
- Clear, healthy waters
- Community and tourism benefits

Phase: Take Action - Help Us Go Further

- Donate boats, nets, conveyors, trucks, or funds
- Volunteer or promote our mission
